

The still nature of men
August 1, 2008
Joel Akin

Ezekiel 47:10 And it shall come to pass, that the fishers shall stand upon it from Engedi even unto Eneglaim; they shall be a place to spread forth nets; their fish shall be according to their kinds, as the fish of the great sea, exceeding many.

If we are to consume a beverage it would spread cheer to the heart. That is of course the nature of tea. Some laugh because they all know what their cheer is in the heart.

Of course the point of cheer is when we are granted life. According to the sea of life we live in men are dead to life. A grant of life was given to Vincent Lee who was said to be responsible for the death to Tim McClain and he was the key to a murder on a Greyhound in Manitoba near Portage La Prairie.

If Vincent was the culprit then it was a horrific one where for no reason he cut off the head of Tim. Time was minding his business when suddenly his life was at an end.

It isn't a story of good cheer because Tim lost his head and that is the key to the fishing story today. When men eat up the head they eat up the grape of the sea. It gathers in clusters called schools and they go about the sea doing what they may. However we are killing off the fish and the source of knowledge is they are billing it to the penguins in the Arctic or Antarctica and that is a point of picture in history. For if people of Japan were responsible it would be a think called time for if all people went out and did the trawl line to infinity it would carry in tons of garbage as well. Thus everything in the sea would be caught including the line about the still mans nature. For the nature of men is caught in a box and the box is about to be released. Thus the nature of the box is caught up into the sea of men who want a work to do.

That work is the headship of the sea. I believe God is saying Japan is meant to take on the leadership of it and I mean exclusive and fully and completely in the nature of inter and national or nation of the sea experience. It is the nature of the sea that gives me a free reign for people of this age want to know the purpose of life. It is the nature of the sea and the people below who will rise up to be with us in the day of time and the day of life and the day of freedom for all involved.

It is this which gives me desire to write and thus I share the story of the still man is the story of freedom for the fish and the fishes of the sea.
