Lets put a few words down for the night. I have threat of reflux. Mostly overeating at lunch time with Papa Johns pizza. It was the first time I remember having it. Pretty good.

Now the body of the Lord is to be in contact. If they are to be here they have to find a way over the shield. It is based on time and wave. The two are displaced and they are hard to deal with. All the way in they have to bill the price of it to the sea. That will make the sea boil.

However the sea we refer to is probably ice so that will be when man thinks the earth is about to end. In reality it is. First the iron in the air will create a new expanse and that will forge a new way in.

The problem isn't that it isn't good but that when I am very tired I don't get it. That is I can't deal with things that are old. If a scientist when back twenty or thirty years technology would have changed. Twenty years ago there were not many real computers except Radio Shack. They tend to avoid more then a few k at the time. I think 64 was the height of it. Now they are in to trigabytes and that is going to change in another year or two to higher then anyone can conceive. It will be the worst expanse of knowledge we can conceive. The battle of know it all. Of course that is the battle I face. I am struggling to keep awake. Going into reflux is the last thing I want.

Now this isn't going to be long. I have been in communication with God. He has prepared me for the rapture of the church. It is going to be in the middle of time and that is when the clock doesn't strike as it should. Now if you have a palm or a pilot then hang on. The battle will be of time. This means it will be willing to deal with the project of life on earth. It will be a sugar and a choke. The sugar is going to be dealt with by emote and that is the bill for it. In other words God has to deal with the flower. It is the one generator no one expected.

The little flower. It is everywhere. God focussed on the day and that is when it is brought up to pay a price.

Now the bull is in the show. The bull is the fish of life. If you were to put the fish into a mass it would show up as a school. If the fish were to cast off their freedom and become second best then we as men would learn how to catch by hand.

Now I happen to know the body of man is still not well. It is the body I face

and still deal with. It is weak. It is tired. I am in a body that is so full of pain, yet I keep going.

What then is the answer? I wish I could say. I wish it were up to me but its not. The will of God is being dealt with. He is doing what is called taking a body women to the brig. Only the brig is the brig in Heaven. It is the craft they have there.

Now the body is the fish and it is in the move of the school. Thus if I got the code it was Ta Ke Ka and it is connected to the body of code ISO 639. Take Alpha 2 and 3 as the same. Remember Christ is the body of those who are Alpha. Alpha is the same as the mind of the father in the Spirit. In other words Alpha 2 and Alpha 3 are the same. They join in by a very unique code. One which no one found. I learned the frequency of shape by the way language is. The body is now into the last day. We have been part of the reveal. That is the way of Christ. He is given help by those on earth. So I came to see the Alpha 2 and 3 as the same thing.

Lets put it into perspective. If you go to the grocery you will see it. One grocery code called E and N. That is the English code. We also have French and there is Tamil. All of these are word play. They show the body of Christ which way to face. They give him a way to go from down under up to Bam and then on to Chu. Of course those are clues.

The next clues put him in contact with Truth and Wisdom. He does a part for afri ans which is base for languages. Once the languages are free he is going to deal with man in science. We may deal with the moon. If so that is where I am. The next part of the code reveals he is to rebuild Truth and Wisdom. Along the way I am to be licensed or lied into by the deep part of the way in. Lied into means to take a lie and build it up for the world. It is called to deceive.

Now the point of deceive isn't to lie to us who are Christian but to work with Truth to deal with science. She is the con-science of the world. She is the part who holds science inside. She is the bee of it in the see or sea. Now she is part of Hope who is trapped in the displacement field. That is where they are; the people who are going to deal with her. She is the problem of this and every story. She is part of the mag and the neato.

If I go on I'll give away all the clues. However if this happens to get published before these things happen know I wrote it late or finished it just after midnight.

I am okay. I had some rough attacks but they are being dealt with by God. As for the bottle in the brief it was and is a type of play on words. Banjo and wine. Together they could be ban and wine. Whatever is to happen it will shake up the entire world.
