

The bill for time
July 4, 2008
Joel Akin

Leviticus 13:56 And if the priest look, and, behold, the plague be somewhat dark after the washing of it; then he shall rend it out of the garment, or out of the skin, or out of the warp, or out of the woof:

In our day to warp is to take to a new level. Warp is a favorite of Star Trek and environs. Imagine it is the day of old, men have a name for the sea of time called lie or li upon the waters. It is a way for fish to lie or li when they are ready to molt. The body goes into convulsions and is then changed into a new way of life.

Of course if fish do it then we tend not to pay attention.

Now I am in the bill of time. Time is when you face a fruitful day ahead of you. Time is when you bill the way to life and the way is open. The way is then open for life for if God heals the way of life it will be done in a way unique and obvious. For example if I am in the way of life then I am an inspiration to some. People can hear about a sea of life and chase it down as a rumor. The person often regrets giving out too much and so the way to life is clear.

Of course the enemy tries to rise up to block the way. He bills the way with dark and horrid thoughts of dark demise. He says 'You fail' and so the way to darkness is often the way to life.

If that sounds bad it is. Who among us wants to fight darkness? Not many. Yet if God is in the sea of men who among us knows how to reach who they are? For if we reach them we first have to find. To find what they are requires they go to the sea and become the living way of life. This is the sea at work. The sea is the fragrant grass which is drunk by a sister or the fragrant water made by the tea. It is the grass of life with the fat which is often reserved for the Lord. He who is God is the set of life in the sea. Thus God reserves the percentage of life according to scripture as fat.

We in this time cast it off as vile in nature. We see it as the metaphor. One side is cook and the other is raw. The raw side is un and the cool side is pas. Pas is like no but it is also like the day of life when things change. For if the way to life is found upon the bay then the pig is the bay of life. So for this to happen needs change. Change which is being bought and changed for by those who live in the sea. They carried no weapon which could form and no weapon that was found to give the bill man a collect. It is after the way is open that the day is made.
