

Striking back at the devil
March 29, 2008
Joel Akin

2Samuel 1:27 How are the mighty fallen, and the weapons of war perished!

There are men of time who have gone out and won victory in defeat. They have won by the way of Christ. If we fight we win if we lose we win. Even if we fight with all our might and win the battle and lose the war we win. What matters is the pace of things and the war of life.

People of this world who are Christian live in safety. They are not in the war so much as they are in the battle. Trust me when I say that is a good thing. For the battle is wise but the war is horror.

We must live to fight another day and perhaps in the day or week or month of time left I can fight with more than just passing glance. For if I pass on to the other side I become a mighty war in itself but in the end I pass. All because the war isn't going to be won in just a few years of prayer. We are dealing with a spirit called devil and it is a bind of men and women and children into a vast conglomerate army. Each one can bear a part of the war and each one can take the war to the next level. Each one of us who are in Christ do what we can but we fight against devil.

What is a devil? To put it into perspective we must realize that it is a lie and a lying spirit. It can and does make us see what we want most. Only it is a lie. It is a word which mocks the WORD and it is a play on things to the degree we become minor or bit players at least in the soul of the creature called devil.

He is a mix of things and bit of clause and clog. He can bite and he can snarl. He is a war creature and perhaps one of ancient war technology. He goes after the bit of time which is and is in the hands of God. He goes after it with prejudice and still takes the life joy of those close to the Lord. God is not concerned but He does tread carefully. It is that this is a time of change and change is for the best.

It is this time of change when God will move and frame out a box to put into it the things that need to be there. He will carry things to that region and put it down as the oath. The oath is like German and it is like Al and Burr and ta. Of course that is a clue for those who wish to find it. It is the point of the future and the point of a transcending to a place of safety. God has things set up and is going to heal the point of life. He is going to bring it to a place of point where men can do things to heal the land. He is going to heal people and those who think and those who believe and those who pray. He is going to heal me because I see it as a negative when God means it as a positive.

I guess the point of devil and the war is that he is a lie. He is the carry on of pin and point and if we can time and code. He is the bill of things yet to be and yet to be dealt with. This is the price of time and the price of life in hope for the chair of heaven. It is heaven in the small and that is the atmosphere where Christ is soon to come.
