

The sea of Li  
May 27, 2008  
Joel Akin

Genesis 3:24 So he drove out the man; and he placed at the east of the garden of Eden Cherubims, and a flaming sword which turned every way, to keep the way of the tree of life.

The sea is Li. It is the way to China. If we take the word it becomes Shina. If we take ki it becomes Shikina. Now we can bear it to women as she kina and it would be a woman kind. Of course the woman we speak of is a woman of myth. Shi.

Shi or She is the one of the hearts. She came to us in the way of the East. She arose out of the hostile territories of life.

It is the will of men to take the way of life. Now that means this is the story of Shi. She is the sea and the take of all things. She is the take in the sense of li.

Li was the way to the sea. It was the way to the li. It was a way to Shi or She. Of course the way to Glory was the way to Li. If you could Li you could use a compass. The compass was of men. It was an invention. One taken into the sea.

In the deep it was called Li. There it rode down upon a bay. One today we call the way of the deep. It was the way to the sea of time.

We know it went to Li in the way of Shi and Ki but that was part of the Keys which are given to Christ. They were by way of a Lagoon. One went there to sail out and go forth. It was this which was the way of the deep. One sought for in the way of time. Of course today it is a lake used for water in the state of Florida.

We know the way to Shi and Ki was the Li of men. She came to be the sigh of the heart. They wanted to find her so they could raise her up. She was the ship. One so big it was miles if not more. The way to her lay in the deep.

Of course the way to Glory lies in China. It is a way to the deep of the sea. The way to it rises up to Mongols and if you carry the sea into it we call it the Li of a. Mongo lia. They were the people who came up to the sea and came up to the me part of n. N or n was the way to Eden. It was a way closed for repairs. Of course the way will be open when the way to the sea is repaired. Then we can take it to Glory. That is the way to the Mer Sea.
