

Leviathan vs The Host ASSEMBLED

November 6, 2006 Monday night

Isaiah 27:1 In that day the LORD with his sore and great and strong sword shall punish leviathan the piercing serpent, even leviathan that crooked serpent; and he shall slay the dragon that [is] in the sea.

So, you want to be in a fight. You want to witness the fight of the cosmos? Then tune in tonight because I have the latest updates on what's been happening in the spiritual warfare between Liviathan and the Host of God Assembled. In our previous message the Lord was having me learn some great and wonderful secrets to help the fleet in the Philippines. Tonight I learned just what some of that battle was over and I'd like to share it with you tonight.

As you may remember in our previous encounter I was rushing news to help overcome the deadly explosion set up for the Lord of Hosts and His army and His incoming fleet. You may know a little history that there was a promise made by McCarthur to the people of the Philippines that he would return. When he finally did come back with a great army and conquered the Japanese through out the islands and then said "I have returned" and he did.

And such is the promise of Christ who even now is fighting the spiritual fight of the cosmos and is winning this battle over the spiritual forces which hinder men. This is real folks and it won't get much realer then it will tonight.

Unbeknownst to most of you there was a Super Typhoon which took place in the Philippines on October 29th. This Super Typhoon carried a battle message and I'd like to share some of its secrets with you tonight.

In this message there were two sides too the battle. Now the relay was to me in code and I will try to break some of it for you tonight. It came in three main messages.

First was the corn. Now in all of history Corn has portrayed Wisdom. Wisdom has been a part of the story of the Old Testament with men of Wisdom such as Daniel, Job, and great King Solomon. Yet in this 'vision' I saw a great ear of corn. Out of grew all manner of great evil. There was the monkey which represented AIDS. There was the reptile serpent which represented deception and there were other things which came out of the ear which referred to wisdom broken. Wisdom broken refers to the sins that came into our world when Adam and Eve threw out wisdom in the garden of Eden. They then took on the wisdom of sin and from that 'food' sprang forth the great sicknesses and diseases and travails that infected our world.

Now from this ear of corn there sprang out many heads. Each head represented a sin of people and of nations. Yet from these heads there was one head. And that original head spoke of original wisdom. Now original wisdom had given birth to these many heads and each head was like a snake. And each head was capable of turning men to stone. This, if you know your mythology, is like Medusa or Gorgon. Gorgon, if we look at the etymology of the words could speak of several things including "Filth Gone" or "Wisdom gone" depending on our viewpoint. In the second part of this 'vision I saw a woman. An old woman. Her head was turned to the side and her head was made of stone and her head was a temple. The temple was beneath the sea but the temple also spoke of Wisdom lost.

In the past men sought solace as they searched the heavens for answers. They built temples to the sky, such as the Mayan, and on those temple tops they sacrificed on stone altars to their gods. But in each case they were searching for wisdom. But I believe that God has shown me that wisdom's head may have turned to stone and they may have tried to sacrifice upon her foundations but He has told me that He has searched out and found the true foundations laid at the very founding of the earth. And those foundations are true lines which cannot be moved by Sin in any form. So rejoice for God has found those true stones and one is laid in wisdom. And if one is laid in Wisdom then it is wisdom who holds hope for men.

Now in all these things there are mysteries and there are stories yet to be told. God shows us things that we as men might refer to our history and see that God is in control. There is no confusion with Him nor is there dishonor because we as men fight Him. In other words our wars with God do not dishonor him they only dishonor ourselves. There are men out there who struggle against the hope of the cross of Jesus Christ. And if there is one nation which is at a cross roads it is the Philippines.

The Republic of the Philippines is a nation I have traveled to. I know that one of the main areas I visited was Luzon and it was in this island that the ferocity of the typhoon struck with the wind speeds of 125 mph. It was this island where this battle in the spiritual between God and His host and power of sin and Leviathan.

Most of us don't pay much attention to the role of Leviathan. In the 'visions'

that God has given me he has shown Leviathan as a great crocodile. I have seen it twice and it is huge with a great mouth. Yet in the first 'vision' he showed me that Wisdom had sat upon the head of Leviathan and held him at bay.

In the second vision of Leviathan I wanted to warn you that it is complicated. And with all complicated visions it requires some time to tell and to tell well. You may wonder what these things mean, as do I. I pray about them and I seek Gods wisdom for knowledge and understanding. I ask of you that you do the same for this is perhaps one of the most important visions relating to the last days.

I saw a wolf and like a great caricature the wolf was staring at me with glinting eyes. I could not tell at first if the wolf was good or evil. In most fairy tales the wolf represents the creature that eats up the pigs. We think of the pigs as good because they build houses. But in this story the wolf sat underneath the great pig and seemed to support it under its great weight. The wolf was trying to get my attention and it was pointing towards a train. Now the train was filled with people coming towards me. There were people peering out from the back side of the carriages and at the engine was a great cross. The cross was normal on the left side but on the right side where the arm lay the cross had the mouth of Leviathan . This did not stop the train nor the people who appeared to be coming our way.

There was a platform to the right of the train and a huge series of steps which went up to a building. At first I could not discern what the building was but as I looked carefully I was shocked to see that it was a great spaceship. There were large portholes around the top and on top of the very top of the ship were two numbers, similar to what you might see on a birthday cake. The numbers were 45. Remember this storm in the Philippines took place on October 29, 2006. This means if this 'vision' were a sign to us of the arrival of the train at the spacecraft then the number 45 will be significant either of days or years. Since years doesn't seem to be hopeful to me then it is possible it speaks of days. If that is true, the train full of Saints might be back to earth spiritually around December 15th of this year. Now if this is true of dates then is it possible that Jesus will be the new star in the heavens for the return of His Second Coming?

Now the 'vision' wasn't yet complete and the next part becomes complicated. Some of you may know that there has been a war in the Philippines for many years over the government and the Muslims in the Southern part of the country. This war with Muslims was the other part of the vision. It explains much and it will be difficult for some to fully understand. So listen carefully please.

In the vision story the wolf was pointing towards the gospel train. He was supporting a great pig. Now if you study scriptures you will know that Jesus sent unclean spirits into pigs or swine. They represent unclean spirits who prayed they would not have to return to the Abyss.

Now this great pig appeared to be stuffed for in its mouth was an apple. But the apple was not just an apple but it was the head of a Muslim man. Now he had his right hand reached out and was placed over the top of the Gospel

Train Cross. He was in collusion with a great crocodile, Leviathan, who had its clawed, webbed left foot on top of the Muslim hand, making a pact over the head of the Cross and the cross on the left arm was actually the small head of Leviathan.

I think it important to point out that the power of the train was the cross and the power of the cross refers to Jesus Christ. So the Muslim head, referring perhaps to a panel of Imans, wished to take authority over the cross of Jesus Christ.

Now as I looked carefully I saw that Leviathan was in the process of devouring the Muslim man or body even as he made this pact with the Muslim head who represented, I believe, the Muslim people. Behind the Muslim man was the hilt of a sword and between Leviathan and the great pig was the head of a bird in the shape of a triangle. I believe it speaks not just of a vulture but also of a nation or trio of nations yet to arise who will come to clean up the pieces Leviathan leaves behind. This speaks of the Muslim nations coming under the power of Satan and he 'eating' them so that nothing of their power remains upon earth.

Now some may question this and wonder what it means. So listen carefully. There are many kinds of spirits in the world right now. Some fight on the side of God and some fight against. I believe that spirits have the ability to enter into animals, as we know from scripture, and those animals can speak for God or against God. In this case the wolf seemed to be supporting the cause of God while pointing out the truth of the Gospel, ie, the cross representing freedom from Sin.

But the unclean spirit, the great pig, had taken the Muslim people into its mouth. Now a pig doesn't do this when alive. It is usually people, or as I believe, unclean spirits who represent Death and Sin which have gone into the Muslims. They present the Apple and the Apple can be good fruit or bad depending on its circumstances. In this case it seems to represent bad, as in the Sin Apple. The Sin apple is a play on words for it represents the fatted calf but it also represents the fatted pig which is abhorrent not just to the Muslim people but to the Jewish people as well.

This unclean spirit has taken the Muslims into its mouth and has become the representation of great riches and power. It speaks of many things but the main word that was given to me by God is that it speaks of Sin becoming fully ripe in the Muslim people. This fully ripe spirit of Sin seems to be the purpose of the fatted pig. It carries unclean spirits to the Muslim people so they can become fat in the ways of Sin. Once they are fully fat and ripe for death the Spirit of Leviathan, also Sin, rises up. It is the Unclean Spirits and the Spirit of Sin which have colluded with the Muslim heads to fight their Jihad against the Spirit of God, the Lord of Hosts.

Now you must understand that when Muslim people fight against Christians it is not Christians alone that they fight against. It is God Himself. That Battle against God and the Lord of Hosts is being won. So hang on to your hat and as God reveals things to me I'll be sure to carry this news on to you. Stay on the battle line people.

All the best
