

# The Spirits of Sickness and Disease

Truth behind the story

Wednesday September 6, 2006

Joel Akin

Matthew 10:1 And when he had called unto [him] his twelve disciples, he gave them power [against] unclean spirits, to cast them out, and to heal all manner of sickness and all manner of disease.

We live in a strange age. An age filled with knowledge. You won't find many men, doctors especially, who don't believe that Sickness and Disease are not spiritual but just a result of things called Viruses and bacteria. Poor living equates poor health.

But what if there were another factor involved. A factor so detailed, so conspiracy oriented, that not one man on the face of the earth understands it with clarity. In fact this is a story, a spiritual story that is true. A story that revealed to me a clue which I didn't fully understand until today. And when I say 'fully' I am sure that time will reveal even more details of this massive conspiracy.

Where do we begin? For the sake of this story we have to begin in the garden of Eden. Adam and Eve sinned by partaking of the fruit from the tree of knowledge of good and evil. When they partook of it their spiritual side died and their natural side was born. This natural side was particularly affected by a spiritual kingdom run by Satan. This Satan was a fallen dog who had come into authority through a great curse which had gone into the tree. The great Cur, Satan, had inherited a great kingdom run by Sin and Sin had transferred this authority over to Satan. Satan had run with it and become the dark force on the face of the earth.

He had to begin with the men that were on the earth at this time. These men were inheritors of the sin regime and became part of the overall source of pain. Now there were among the spirits a great number who served Satan. Among the base pairs of spirits there were two who stood out more than any other. They were called Sickness and Disease. I believe there were two spirits by that name who were in control of a great number of spirits underneath them who did their bidding.

Sickness and disease were considered by God to be the easiest spirits to overcome spiritually but after the return of Christ to heaven man seemed to 'lose' much of this gift to overcome these spirits except for the rare exception. Knowledge was lost and people perished. But Sickness and Disease grew in scope and continued their rampage upon the population of earth.

God spent a lot of time speaking to me about these two spirits. He instructed me that Sickness was the weaker of the two and Disease the stronger. Both worked together. First sickness arrived and this was followed by Disease. It sounds backward to common sense but it works.

Now I wish to relate a true event that happened to me that was a puzzle for a long time. It took place after I had been in the hospital for a night. I had met my roommate whom I will call Ernest Christian. He was from South Africa. His doctor was of Indian ancestry.

One day the doctor came in and began speaking calmly to Ernest that he represented the spirit of Mad Cow. He needed Ernest to travel (spiritually) to India to set up India for Mad Cow disease. They began to speak for a time about methods of carrying this 'fake' disease to India and how they would fool certain people in the process of identifying it.

Now this event was super strange and I have wondered about it trying to understand the significance of it. First, how could a recognized doctor be so possessed that he would speak as a spirit of Sickness and then when the message was sent, in this case to Ernest who was the 'carrier' of the Disease. Not physically but spiritually. This message was sent and then Ernest fell asleep and slept for nearly 20 hours. Each day he slept and each day he slept longer and longer. I believe that somehow the knowledge was moved, in this case, through the sleeping world to India. Now this event took place around March of 2005 and as of this date there has been no report of Mad Cow in India. But I want to go on here because I believe this knowledge I saw has further ramifications for us believers.

First it indicates a spirit world in control of the realm we put our trust in. Hospitals. Secondly it indicates that Sickness and Disease are not, and I repeat not what they seem.

Lets think about this for a moment. God showed me they were the easiest spirits to be overcome yet he also indicated there are two levels. First is the spiritual warfare and second is the natural warfare. Now the first, spiritual, is where the spirits are in charge of speaking to us to accept their authority. Now I know this is controversial because most Christians today have not seen spiritual things at work. We haven't seen a high order of healing in our churches or in our hospitals. Sickness and Disease are rampant. AIDS is in the multiple of millions. Mad Cow affects millions of cows and yet there are strange things about it including the fact it has major financial issues surrounding it. As God said to me the second most common spirits in authority with Satan are the spirits of Riches and Poverty. With Sickness and Disease Satan can rear up and take down nations so they come to a place of Riches and Poverty. Now all these spiritual powers are key components to his authority and to his power.

Authority comes first but to obtain power he needs permission to do so. So if a spirit calling itself Mad Cow comes to a cow it won't have much effect to the cow itself. Now it doesn't mean disease isn't real but it requires men to give it names. Sometimes these names might be from Men and sometimes they might be from Spirits. The important thing to remember is this. That the Disease, like a virus, is carried by these spirits. I have a belief that the spirits can then enter into a person through that virus or through that bacteria and then if the host is weakened by other sicknesses or diseases then the host becomes 'willing' to accept more viruses and more bacteria. Before you laugh too much remember this. That Sin is the inheritance of mankind in our body.

For example I struggle in prayer because this body is affected by Sin and by sickness and disease. It has nothing to do with my relationship with God. That relationship allows me to overcome SAD(Sickness and Disease) on a spiritual level. That is called Authority. But there is a major problem because I cannot overcome physically until I receive the power or in this case its called the Anointing. Now this power should have arrived but Satan intruded personally because I was growing spiritually too quickly and he grew afraid. Does this mean I cannot overcome? No. It simply means to come to a place where this body is healed of its multiple SAD's I have to overcome from the top down. So when I overcame the first time I overcame by the bottom up. This loosened a battle which started a war we will call the last days war.

Now this is something I didn't start out to start up. I just wanted to be healed and couldn't understand why healing wasn't touching me or anyone in my family. We just kept getting sicker and sicker and disease ran rampant with my parents and I. Cancer, gout, pain, suffering, heart problems, high blood pressure, neurological disorders, stomach and bowel disorders and on and on. Some Christian thought we were off base somewhere because we all suffered but in reality our family was in direct conflict with Satan's goals to rule the world without interruption. Why our family? Lets just say that our family is one of the few that has literally generations of prayer that is unceasing for more than 100 years to the best of my knowledge.

So if prayer is powerful than our family has been in direct conflict with Satan and his kingdom. And I inherited this desire to pray and am a relative newcomer in some respects though I may understand better why our family suffered such hardships spiritually. We were in a battle but this battle just went on and on and on. So if I say that there are strange things out there please don't laugh too much.

So how does this work? Think of the blood as being the main transmitter. Life is in the blood but SAD's are based on death and time. Now these things all fit in with scripture but sometimes the concepts behind them are modern day. For example a virus is under the authority of these spirits. Some of these spirits may be carriers and they plant them initially in nature. So for example a rat, a monkey, a cow or other animals will be the 'carrier' of the sickness and then these are transmitted to men and their bodies. The body then becomes a carrier of the disease and the spirits coax these viruses, like nano bots into multiplying. The end result is a body plagued with disease.

Now the doctor says "Its just a disease" but don't listen. That disease is part of a spirit and it affects your soul, your mind and your body. So how can you fight? By prayer though one must remember there are some things that require time in prayer to overcome. I am an example of this and according to the things God taught me I will overcome pain and suffering first then Riches and Poverty and finally last but not least the spirits of SAD. Once this happens, if I understand right, I should be able to go out and pray for any man, woman or child who suffers with SAD and they will be healed; at least as long as they are still alive. Once they are dead then they are dead and only a special exception from God will change that.

So the next time you think of SAD think this. That there is a battle taking place and Gods desire is that we be free of it. If we are willing to be part of

this battle that is and not submit to Satan's authority.
